

Majestic College

Prospectus

MAJESTIC College has been established in direct response to the growing demand for quality vocational training linked to national standards.

Over one million people are currently enrolled in vocational courses in the UK covering a wide diversity of subjects ranging from Health and Social Care to Administration.

MAJESTIC is about empowering people to make informed choices. We assist people to recognise existing and transferable skills, which means people only receive training they actually need to achieve the levels of competence they deserve

Students can expect to receive a complete package from personal counselling to career enhancement opportunities, continuous planning and development to learning support and guidance.

Organisations receive capacity building and quality control systems set-up support.

We are part of a consortium that shares a view of ensuring consistency of quality of services, particularly in training and employment.

We also work with many voluntary and statutory organisations.

All of our staff have had long experience of working to QCA standards and NTO's Criteria.

We offer the full NVQs or single legislative or linked modules.

Our rolling programs ensure students do not have to wait for academic time-tables and may start their courses any time of the year.

The option of attending modules at one or more of our consortia members offers even more flexibility by extending and/or shortening the time to completion for our students.

We now offer Social Care Skills Council Common Standards Induction

Support

Before you start your training you will meet with one of our support staff help you settle in and assess your needs.

A **Majestic College** assessor will monitor your progress and provide ongoing support and ensure training is effective and put into practice.

Accredited NVQ Courses

Health Social Care Level II Generic	OCR
Health Social Care Level III Adults	OCR
Health Social Care Level III Children and Young People	OCR
Health Social Care Level IV Adults	OCR
Health Social Care Level IV Children and Young People	OCR
